Stairs with Italian design and German quality craftsmanship for clients around the world

DIAMOND

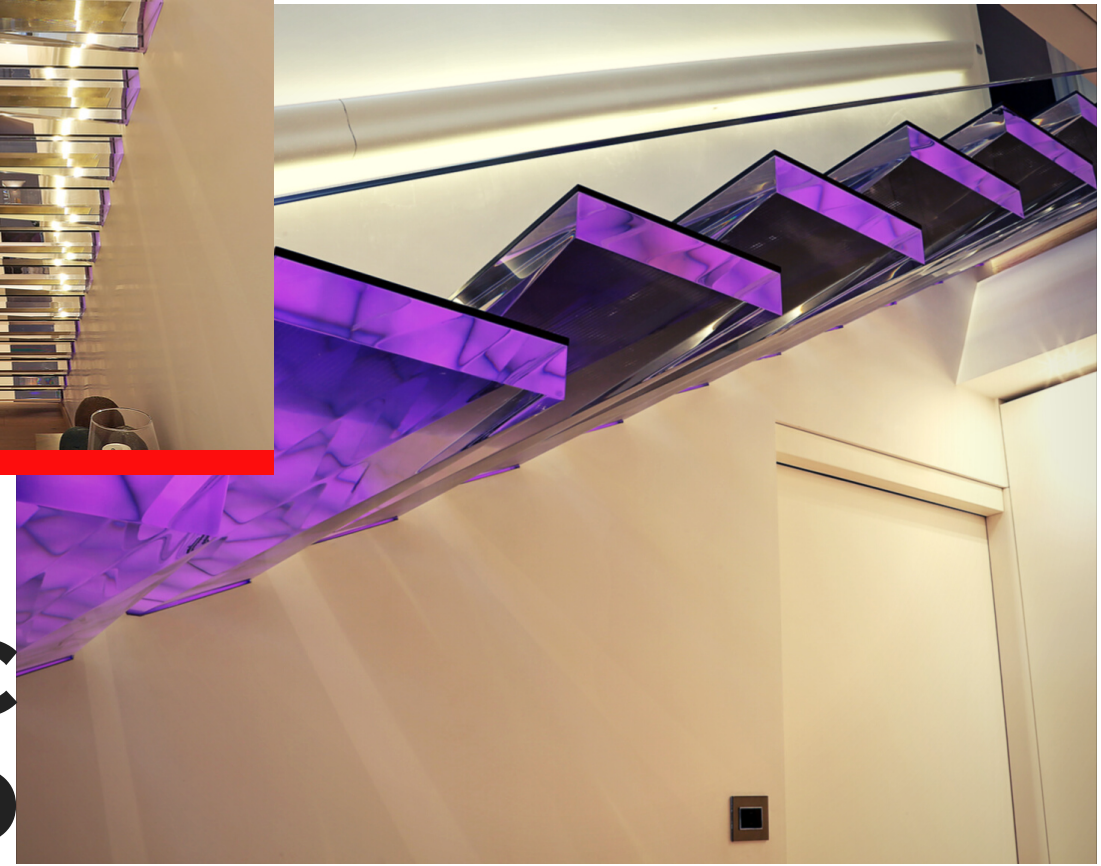

AT THE LIMIT

The treads in Acrylic with LED provide an unreal look. Almost like from another world..

The step surface is covered with a custom patterned glass plate. This gives the product a long lasting and amazing feature.

ACRYLIC AND LED

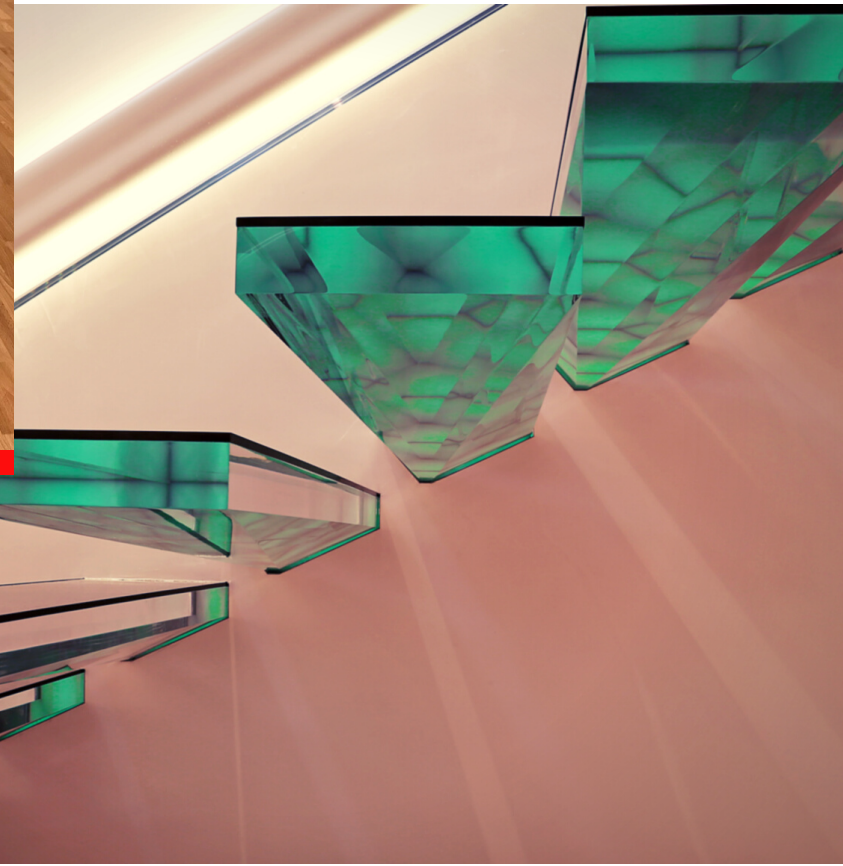

HIGH-TECH MEETS DESIGN

When the light flushes through the tread it sparkles like a diamond..

Have a look at this feature stair in our show room in Merano Italy or visit a building place and see the installed product

SPACE DIAMOND

Stairs with Italian design and German quality craftsmanship for clients around the world

DIAMOND

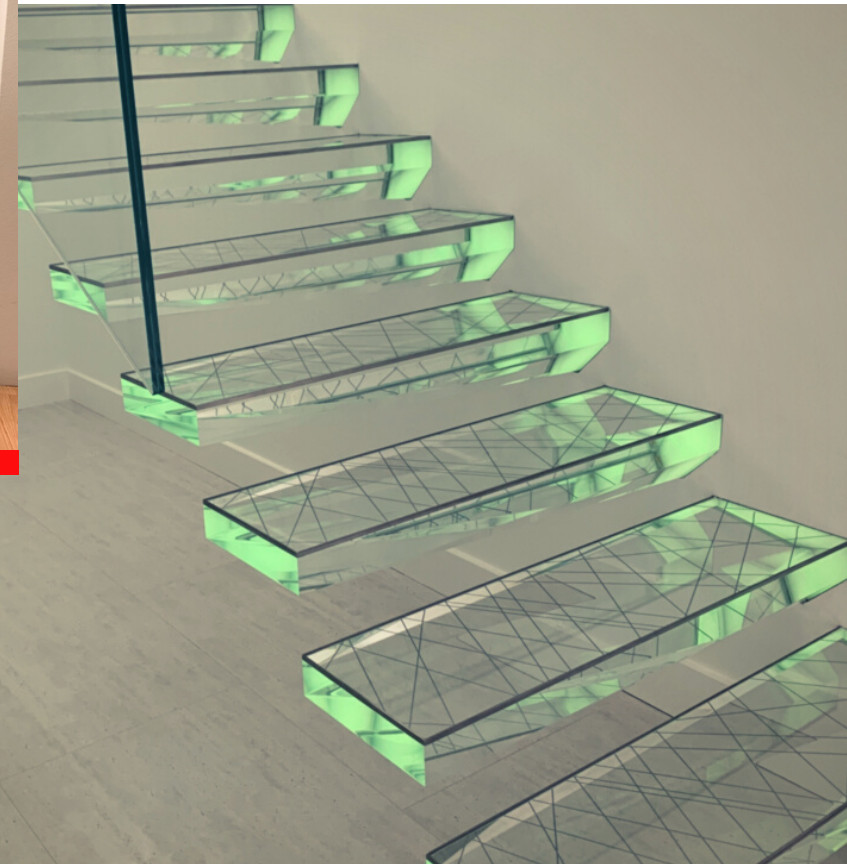

STAIRS OR ART?

This stair design is more a piece of art than a functional staircase.

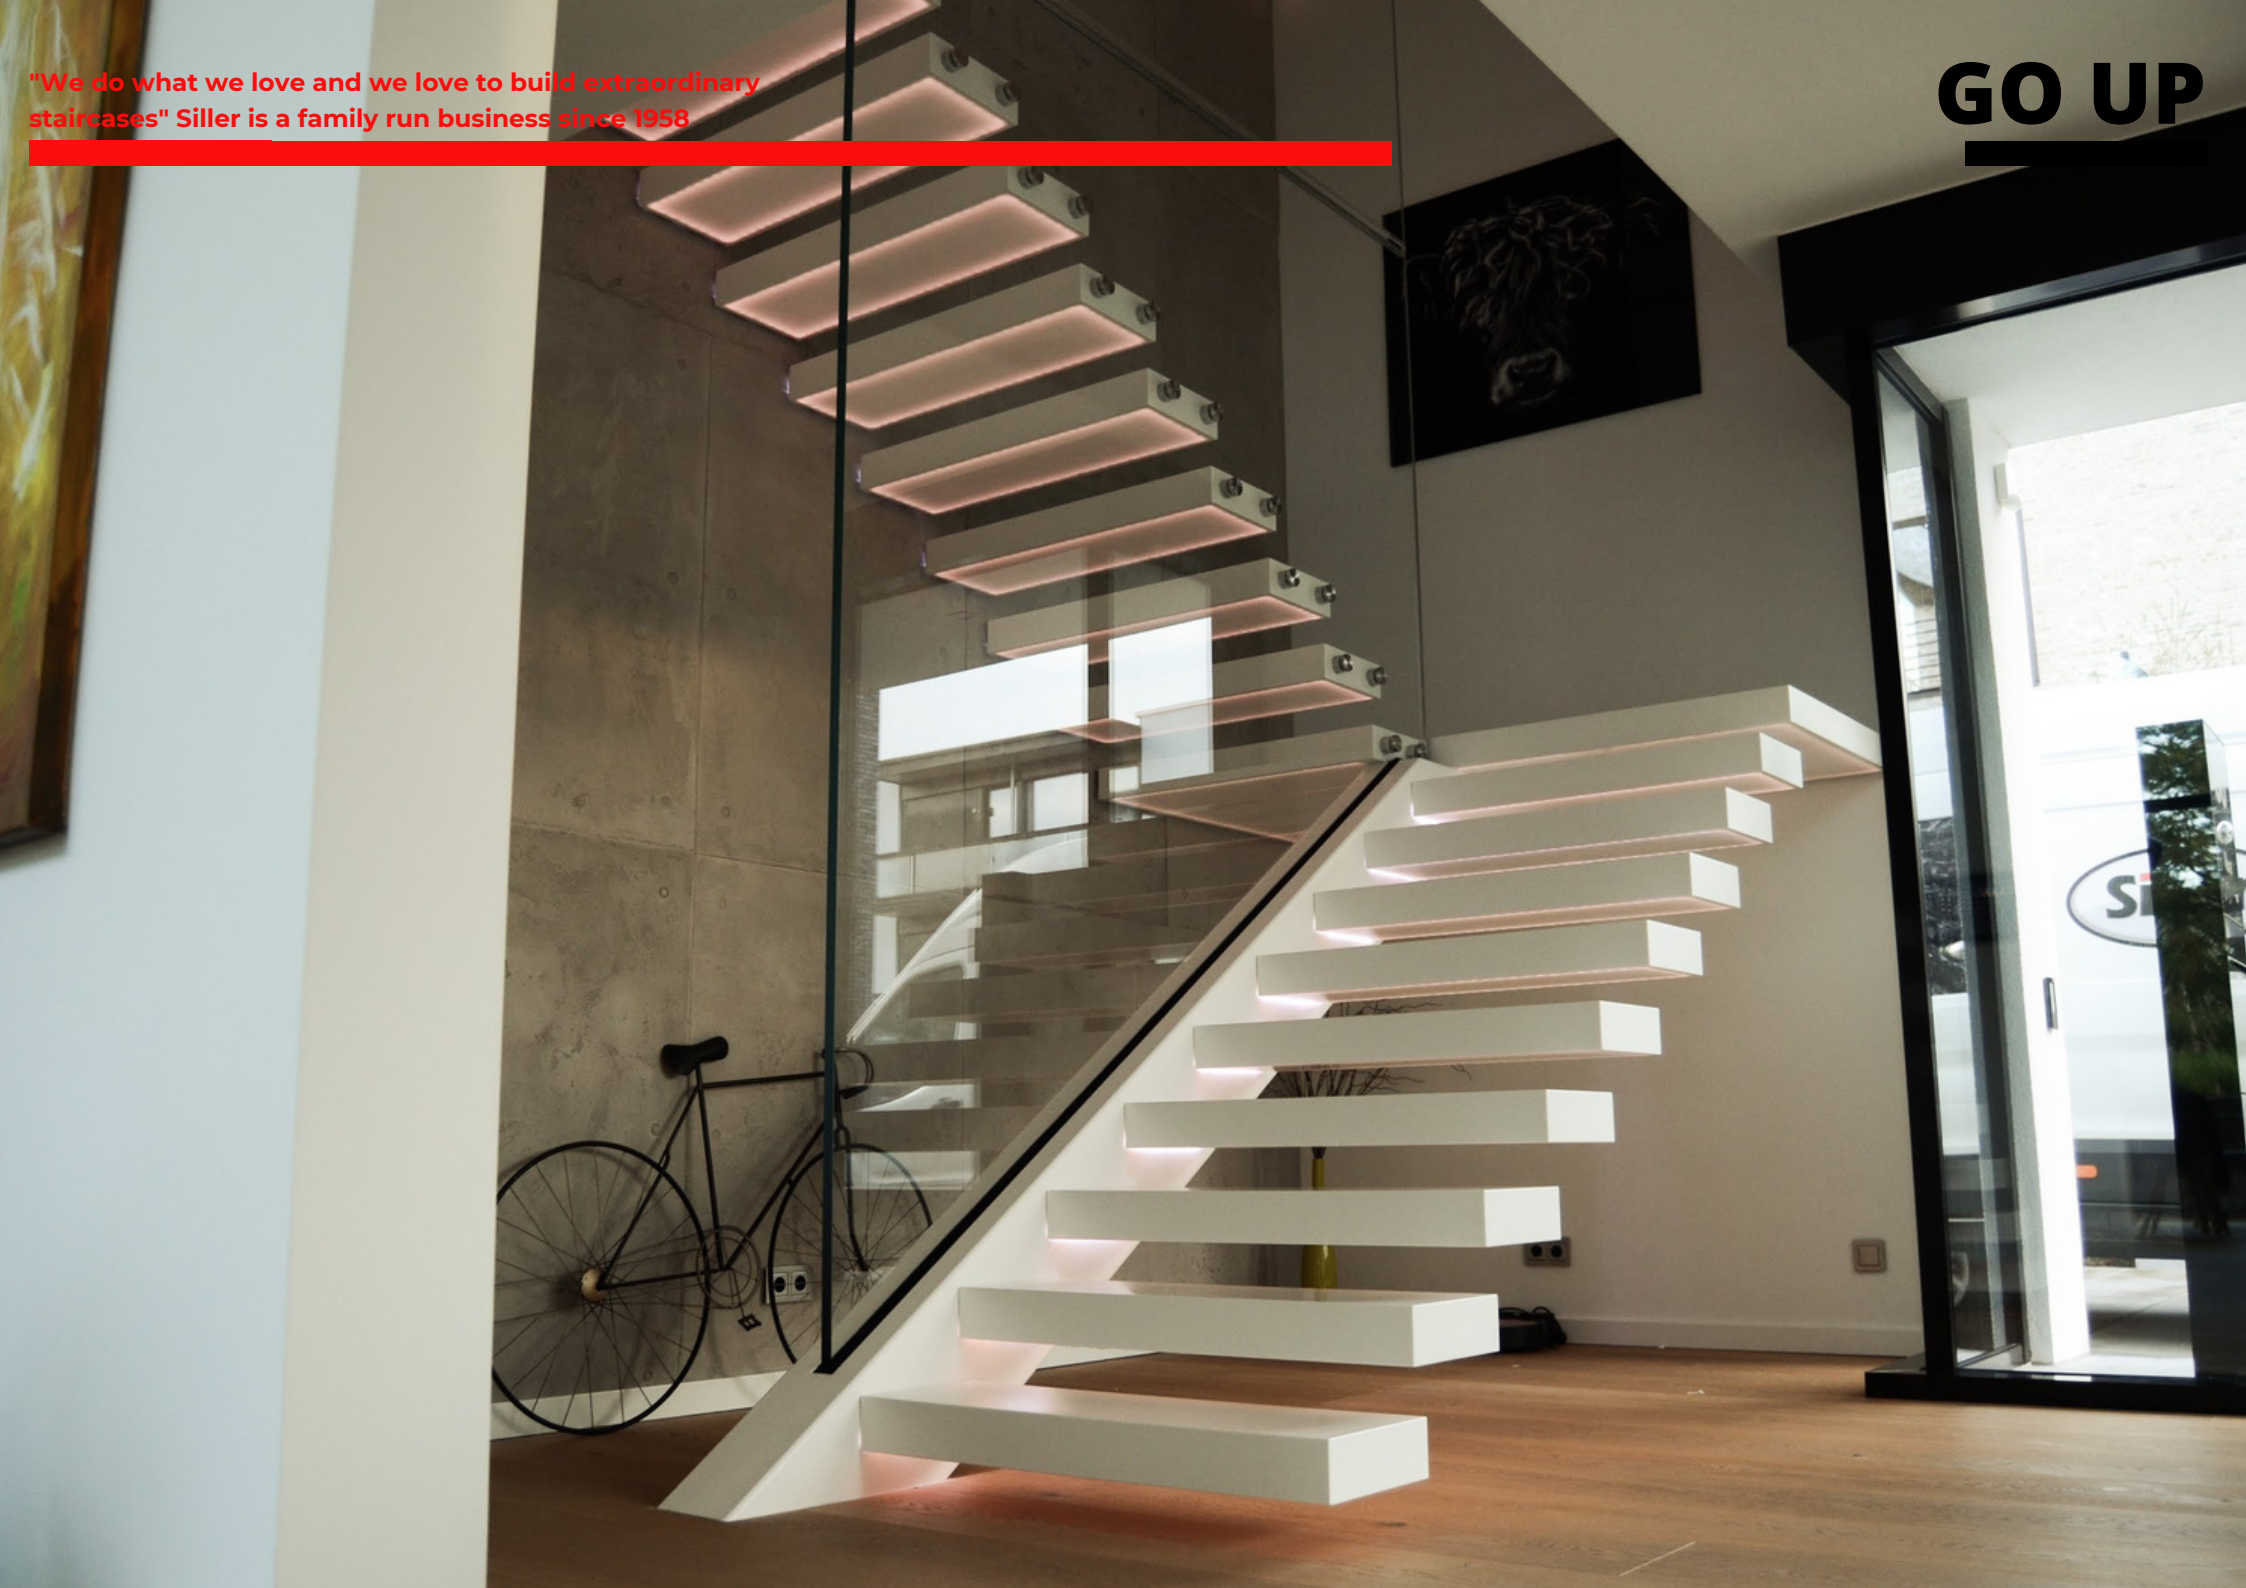

Make it unique and get your custom pattern on top of each tread

SPACE DIAMOND

GO UP

"We do what we love and we love to build extraordinary staircases" Siller is a family run business since 1958

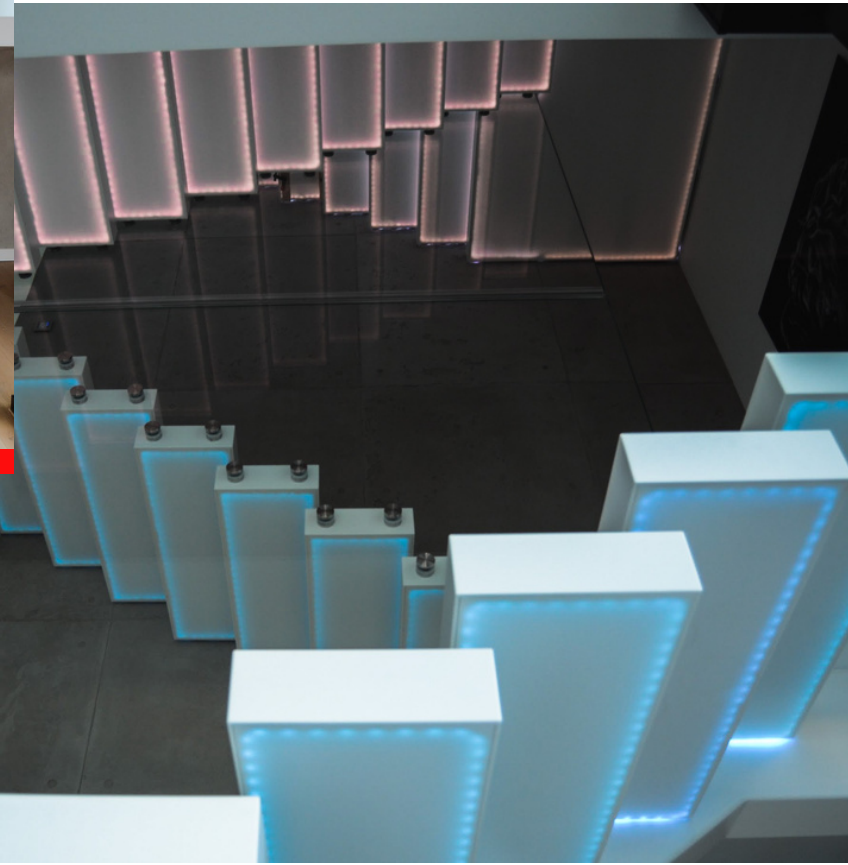

CORIAN AND LED

Corian has a translucent character which can be used to let the tread glow from inside.

To minimize the visible hardware and make the design as clean and straight forward as possible is one of the trademarks of SILLER

GO UP

"We do what we love and we love to build extraordinary staircases" Siller is a family run business since 1958

INDUSTRIAL DESIGNS

PERFORATED STEEL MESH

Give it a timeless look by using a white powder coat finish.

It does not have to be glass all the time. Perforated steel mesh is a perfect choice if you want to create an industrial design which lets the light through at the same time.

SWING IT

"We do what we love and we love to build extraordinary staircases" Siller is a family run business since 1958

YOUR CHOICE

MIX IT! MESH AND SHEET

Mix materials to create new designs and make a Siller Stair to your stair. It is unique!

The visible connections are emphasized to provide the industrial feel. Steel sheet or mesh is an ideal choice to create naturally looking handcrafted products.

STRAIGHT CUT

Stairs with Italian design and German quality craftsmanship - this is SILLER Stairs - serving clients around the world

COBRA DESERT

MONOLYTHIC DESIGN

The COBRA design stands out with its bulky stringer detail. Select from wood, stone or Corian materials for the treads..

Customize the COBRA design with a choice of different stringer finishes like stainless steel, stucco or concrete look..

SKY SCREW CANTILEVER

WOW! WHATS THAT?

Cantilevered stair design with oval stair eye and artistic balustrade in wood..

Add some LED to crown the design and make it a real jewel.
